

Cadmium™ Coverstock  
ensures consistently smooth performance

Continuum Core Design  
allows for the dynamic performance of the ball on the lanes

Hockey Puck  
for top weight

Revolutionary Weightblock  
influences the PAP and the axis rotation,  
giving you more length down the lane

ON THIS DVD  
YOU WILL FIND:

- Exclusive interviews with Storm Staffers Pete Weber, Norm Duke, and Rhino Page
- Ball performance charts
- Ball motion diagrams and comparisons with other Storm balls
- Ball in the Making: Take a tour of the Storm facility and watch ball tests on the C.A.T.S. (Computer Aided Tracking System)
- Videos of trade shows across Europe and Asia
- Weight block and coverstock analysis by Victor Marion, Technical Service Manager
